Wherever your journey, Hilux will take you there. With a choice of two powerful, efficient engines and the ability to tow up to 3.5 tonnes, it has the capacity to move mountains. A new 2.8 litre diesel engine, producing 204 DIN hp and up to 500 Nm of torque, joins the line-up. Capable of 0–62 mph in just 10.0 seconds, it's the most powerful Hilux ever, and with power that's delivered low down the rev range, you have the torque just when you need it. Coupled with redesigned suspension and the availability of Trailer Sway Control, you'll appreciate how Hilux delivers superb towing ability together with new levels of refinement.

MORE POWER, MORE TORQUE. MORE FUN

Did you know... British TV show Top Gear tried to 'destroy' a 1988 Hilux with 300,000 km on the clock. Despite washing it out to sea, hitting it with a wrecking ball, dropping a caravan on top of it and setting it alight, after a short repair with basic tools it could still be driven away.

The Hilux stands out from the crowd. Its muscular stance conveys a sense of power, whilst the striking front and rear bumpers and tough body mouldings protect its rugged bodywork from damage. Check out the stunning light designs and the range of robust wheel designs that further enhance its tough good looks. Want to take it to the max? Look no further than the GR SPORT model, with a unique and prominent design ... it's the ultimate statement of Hilux power and style.

BUILT FOR GREATNESS. DESIGNED FOR PLEASURE

Did you know... Owning a 1985, jet black, 4x4 SR5 Xtracab Hilux was the dream of Marty McFly, played by Michael J Fox, in the box-office hit Back to the Future. But before he gets a chance to drive the truck, McFly is propelled back to 1955 where he meets his teenage parents-to-be.

GREAT DESIGN IN ANY TERRAIN

**TOUGH, DURABLE,
RELIABLE?
UNQUESTIONABLE**

Because Hilux is engineered and tested to operate in the world's most extreme environments, you can rely on the legendary quality, durability and reliability that exists in every new vehicle. With a super strong body frame, a wading depth of up to 700 mm and exceptional wheel articulation even the toughest terrain can be tackled with confidence. Rigorous testing, and unique component design, honed over half a century, has resulted in a unique vehicle. Designed, engineered and built like no other pick-up.

**TAKE YOUR
PASSIONS TO
NEW TERRITORIES
AND BEYOND**

Did you know... The Killin Mountain Rescue Team in Scotland depend on Hilux 4x4 pick-ups to transport rescue teams and equipment into the most dangerous and remote areas of the mountains. When lives are at stake, the go-anywhere capabilities of Hilux become lifesavers.

There's good reason to feel confident in a Hilux. Hill start Assist Control (HAC) and Active Traction Control (A-TRC) make the smoothest start simple, whilst its capacity to carry and tow means nothing gets left behind. So, whether you're climbing or descending the piste (with Downhill Assist Control (DAC)) when you're in a Hilux you can be sure you are in the very safest of hands*.

[†] Up to 3.5 tonnes, 4WD only.

NO SKI LIFT? NO PROBLEM

YOUR SPACE YOUR WORLD

Tough on the outside, comfortable on the inside, the interior of the Hilux takes you to new levels of refinement and style. Durable materials and striking finishes look as good as they feel, whilst the JBL® Premium Sound System* with Harman Clari-Fi technology, delivers superb audio quality. Invincible X models elevate levels still further with dual tone perforated leather seats delivering unrelenting comfort and unique ambient lighting that bathes the cabin with soft blue light. As tough as it is comfortable, Hilux takes care of you, so you can take care of business.

*JBL available exclusively on Hilux GR Sport.

MISSION CONTROL? LIFE MADE EASY

Being tough doesn't mean you can't be clever, which is why Hilux offers you a range of innovative technologies that are designed to make life easier. The 8" Toyota Touch® 2 screen features a host of multimedia features that puts you in control. There's Smartphone Integration via Apple CarPlay and Android Auto™, you can also stay connected using the MyT services designed to make driving safer and more fun. The full colour combimeter displays everything from tyre angles to parking sensor information, all accessible via handy steering wheel controls. There's even a rear-view camera so you can avoid any nasty surprises when reversing.

* Specification dependent on model.

INTUITIVE TECHNOLOGY DESIGNED AROUND YOU

Did you know... An expedition to the most northern spot of Russia is a trip that tests the strength of any team. But with the help of two Toyota Hilux, a team succeeded in covering more than 1,000 km of extreme driving conditions through polar nights.

PEACE OF MIND? COMES AS STANDARD

Toyota Safety Sense includes advanced active safety systems for an even safer and more relaxed drive. At its heart are active technologies that can assist the driver.

Intelligent Cruise Control, which includes Adaptive Cruise Control combined with Road Sign Assist, automatically keeps the car at a pre-selected speed and warns the driver if the speed limit changes.

Lane Departure Alert helps to keep you on course by providing an audio and visual warning if the vehicle starts to drift from its lane marking without use of the turning signal. Steering Control applies corrective force in the event of unintentional lane departure.

Trailer Sway Control (TSC), suppresses any sway caused by wind, bumpy roads or steering etc. whenever you are towing. With sensors detecting yaw, acceleration and steering, TSC uses deceleration control and yaw moment to limit sway.

Because your safety is our priority, Hilux is fitted with an advanced safety system, Toyota Safety Sense. Using both camera and laser technology Toyota Safety Sense combines a range of active technologies including Pre-Collision System with Pedestrian and Cyclist Detection, Intelligent Adaptive Cruise Control and Lane Departure Alert with Brake Induced Steering, whilst Trailer Sway Control always keeps loads in line and under control. With the reassurance of seven airbags, a strong body-on-frame construction and the extensive use of high tensile steel throughout, the Hilux keeps you protected whatever the adventure.

YOU CAN'T PREDICT THE UNEXPECTED, BUT YOU CAN PREPARE

Did you know... A windmill mechanic in Australia has clocked up more than half a million kilometres in his 1983-model Hilux. His 'territory' is more than 100,000 square kilometres of rural Queensland and he estimates there are seven to eight thousand windmills to service.

ACCESSORIES

Designed for your Toyota, our genuine accessories are fitted by trained Toyota professionals and are of the highest quality. Our accessories packs include only genuine Toyota accessories and are produced to meet your needs. Genuine Toyota accessories are available to purchase from any Toyota dealer or our official eBay store, for full peace of mind a 12-month warranty is included.

BED PROTECTION

The high-density polyethylene liner covers both the deck bed and side panels and is precision-moulded for maximum load space. Available as an under-rail application, additional rail caps can be added to convert it to an over-rail solution. Also available are the aluminium and spray-on bed liners, which offer an even tougher protective layer for the deck.

- 1. Plastic Bed Liner
- 2. Spray-On Bed Liner
- 3. Aluminium Bed Liner

SPORT BARS

Sport bars are the number one styling accessory for all pick-up customers. Available in either chrome or matte black, Toyota sport bars offer a distinct finish when complete with matching side bars and roll cover.

- 1. Sport Bar Chrome
 - 2. Sport Bar Matte Black
- Standard on GR SPORT

SIDE BARS

Side bars with integrated step provide easy access to the cabin and make mounting or dismounting roof accessories effortless.

- 1. Side Bars Chrome
- 2. Side Bars Black

BED UTILITY

The utility boxes are practical, weather-proof and lockable storage areas, fitted to the front or the sides of the deck. The rear box has a maximum recommended load capacity of 100 kg, while the sides can hold 30 kg each. The side boxes can also be fitted in conjunction with a sliding deck floor. The floor slides along aluminium rails to help move heavy loads up to 300 kg into the deck space. A textured anti-slip surface and hooks keep loads in place.

- 1. Sliding Deck Floor
- 2. Rear Deck Utility Box
- 3. Twin Side Utility Boxes

OWNING YOUR HILUX

Servicing your Toyota

Toyota Service Pricing means you will be sure to know the cost of your service up front. Expertly trained technicians using only genuine Toyota parts will carry out your service at one of over 200 Authorised Toyota Service Centres. The technicians will advise you on the correct service for your vehicle based on the vehicle's age, mileage and service history.

For more information visit toyota.co.uk/owners/servicing-and-aftercare/service-mot-maintenance

Service Plans

Inflation-proof pricing with a monthly or one-off payment plan means one less thing to worry about. With Toyota Service Plans the price you're quoted is guaranteed for the duration of your plan. The service, parts and labour are all paid for either in monthly instalments or as a one-off payment at the beginning of your plan.

For more information visit toyota.co.uk/owners/servicing-and-aftercare/service-mot-maintenance

Toyota Price Repairs

We offer transparent prices on a number of repair items for your Toyota giving you peace of mind when it comes to managing costs. Also don't forget we only use genuine Toyota parts, all of which come with at least 12 months' warranty (some even offer unlimited mileage warranties); and your vehicle will always be dealt with by a trained Toyota technician.

OVER 40 YEARS OF TOYOTA AT THE DAKAR RALLY

Extreme terrains and terrific speeds. We've never been able to resist the allure of Dakar, the world's toughest race. Now part of the World Rally-Raid Championship (WRC), success at Dakar is about more than just speed. Quality, durability and reliability are vital factors. And that's why we compete – in our endless pursuit to make ever better cars – not just for sport. Toyota's legendary toughness has once again been a triumph with our all-new Dakar challenger, the Toyota GR DKR Hilux T1+, which competed and won the 2022 FIA WRC. Bigger, stronger and tougher, the Hilux model was the vehicle of choice for the four-crew TOYOTA GAZOO Racing team, including Nasser Al-Attiyah who has previously proved the tenacity of the Toyota Hilux in winning the Dakar Rally in 2019, as well as finishing second in 2021.

LEGENDARY TOUGHNESS FORGED AT THE DAKAR RALLY

EFFICIENCY AND LOW EMISSIONS

Announced in 2015, our global Environmental Challenge 2050 comprises of six challenges. They cover every aspect of our business, our exploration of new products and technologies, and our role as an enabler for individuals and communities to learn about and improve the natural world around them.

For more information regarding Toyota Environmental Challenge please visit: toyota.co.uk/world-of-toyota/environmental-challenge-2050 or contact your local Toyota retailer.

CHALLENGE 1

NEW VEHICLE - ZERO CO₂ EMISSIONS

By 2050, we want to reduce the CO₂ emissions from our vehicles by 90% compared to our 2010 levels. To achieve this, we will promote the development of new vehicles with low or zero carbon emissions, and do everything we can to increase the uptake of these vehicles.

CHALLENGE 4

MINIMISING AND OPTIMISING WATER USAGE

To minimise water usage, we have started to collect rainwater at our manufacturing plants. We have also developed purification methods so that the water we do use can either be used again or returned safely into the local supply.

CHALLENGE 2

LIFE CYCLE - ZERO CO₂ EMISSIONS

We are working to create more environmentally friendly designs – and then analysing and refining them to ensure the lowest possible environmental impact throughout the vehicle's entire life cycle*.

CHALLENGE 5

ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

We've been working on the challenge of resource recycling for 40 years, with the result that 95% of every Toyota Hilux is now reusable and recoverable. In addition, we offer new and innovative ways of returning your vehicle when it eventually reaches 'the end of the road'. We are pursuing full life cycle management for battery recovery & reuse and remanufacturing green parts.

CHALLENGE 3

PLANT - ZERO CO₂ EMISSIONS

To reduce carbon emissions at our manufacturing plants, we are focusing on improving the technologies we use and switching to alternative power sources. We are committed to making our facilities more energy-efficient and adopting renewable energy sources such as solar and wind, as well as low-carbon power such as hydrogen energy.

CHALLENGE 6

ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

To preserve and enhance our co-existence with the natural world, we are organising reforestation and tree planting, green urban schemes and other environmental initiatives, both at our own sites and in the wider world. Our aim is to establish a society where people and nature coexist in harmony.

* Toyota's LCA methodology, which is applied to our passenger vehicles, was reviewed and approved by TÜV Rheinland and has been certified to comply with ISO14040/14044 standards.

INSPIRING THE WORLD TO MOVE

Over 85 years of innovation have brought us our greatest mission yet: giving the freedom of movement to humankind. That's why Toyota is the Worldwide Official Mobility Partner of the International Olympic Committee and the International Paralympic Committee and proud partner of Team GB and Paralympics GB.

We are committed to making movement better for everyone, whether that be across a country, a city or across a room, because when you are free to move, anything is possible.
